RE: W. K. Enterprise, Bandit Mine, DOE/037/024, San Juan  
County, Utah

On February 11, 1986, David H. Hooper and Thomas J. Suchoski of the Division staff attempted to locate the Declaration of Exemption proposed by W. K. Enterprise. The mine site was supposed to be situated in the SE corner, Section 3, Township 29 South, Range 23 East. However, in traversing the road shown in the file map, no sign of disturbance could be located. A few plugged and unplugged exploration drill holes were found, but it is unknown whether these holes were associated with W. K. Enterprise. Road spurs were evident everywhere, but it was obvious that natural vegetation was being reestablished in these areas.
